

LETTER OF RECOMMENDATION

To Whom It May Concern:

We Legoland at Dubai Parks & Resorts, Dubai, UAE a Merlin Entertainments plc. managed facility do write this recommendation letter for MAT Filtration Technologies as Life Support System Specialist on the Submarine Adventure ride that was successfully delivered on September 2016.

MAT's scope of works for this project included design (certified by Merlin), equipment supply & manufacture, installation, commissioning and training.

We are extremely happy with the quality of the delivered project that continually tests the highest quality aquarium water from all Merlin facility's globally, this paired with MAT's ongoing aftersales support mean we are more than happy to recommend MAT for your project.

Kind Regards

Karl Rothenburg
