MAT FILTRATION TECHNOLOGIES AND MANNAI TRADING CO. E&IM GROUP SIGNED AN EXCLUSIVE PARTNERSHIP IN STATE OF QATAR

MAT Filtration Technologies ("MAT") is proud to announce that it has appointed Mannai Trading Co. - E&IM as its exclusive distributor of its equipment in the State of Qatar.

The Energy & Industrial Markets ("E&IM") Group, a division of Mannai Trading Company WLL – is a leading provider of comprehensive services to international manufacturers, suppliers and contractors by providing local expertise and "know-how" to the Energy, Oil and Gas, Construction, Infrastructure, Utilities and Industrial sectors. Our local market knowledge and dealing with various contractors, clients and end-users, put E&IM in a strong position of providing the necessary added-value to principals and clients.

Together, will offer the Qatari Market with many innovative solutions to meet the needs of specialty water treatment equipment for industrial and municipal applications, Recirculating Aquaculture Systems (RAS) for land based fish farms, public aquarium Life Support Systems (LSS), MEP equipment for waterparks and complete ozone and UV disinfection solutions.

MAT strategy for 2022 is to expand to markets with high growth potential in the industrial water treatment sector. MAT DOHA is joining forces with Mannai E&IM due to their strong local after sales support as well as Mannai's technological and engineering capacity and market know how.

"We are proud and honored that MANNAI trusts the industrial water filtration sector to MAT and we will do the needful to support Mannai E&IM, in covering Qatar's industrial development, by providing proven technology in competitive commercial and warranty terms." --Vassilis Sklavounos, Director of Global Sales & Development at MAT Filtration Technologies.

ABOUT MAT FILTRATION

MAT Filtration Technologies is a design and manufacturing leader of specialty water treatment equipment. The company's products cover industrial and municipal applications, Recirculating Aquaculture Systems (RAS) for fish farms, public aquarium Life Support Systems (LSS), MEP equipment for waterparks and complete UV and ozone disinfection solutions. MAT was established in Turkey in 2012 with a vision to provide innovative robust cutting edge technological solutions in water treatment.

Since then, it has been successfully delivering projects worldwide. In 2019 the board of directors decided to further invest in Research and Development of industrial filtration applications such as oil and gas, irrigation and municipal water treatment. In 2020 MAT established the branch in Qatar MAT DOHA, to further explore the development opportunities in the State.
