Subject: Letter of recommendation MAT.

Dear Sir/Madam,

The purpose of this letter is to acknowledge the work done by MAT as a supplier to our company.

MAT has worked efficiently and punctually to meet our last-minute requests during the COVID period. They are a dynamic, hardworking, organized, punctual and discreet company.

In addition, they demonstrate a dedication to producing the most functional installation possible for the system requested.

Manager of operations, Barış Mutkilioglu did a very good job in term of management of the project and general knowledge.

I sincerely believe that MAT will be able to accomplish the tasks and provide the work requested and, for all the reasons mentioned, I can only recommend them.

Please do not hesitate to contact me for further information.

Yours sincerely.
